

# Impact Report

## Message from the President

Jane Lutz, 2018-19 NCMGMA President

NCMGMA's 2018-2019 year has been chock-full of creating opportunities and making an impact for our association and I couldn't have been prouder having served as President this year alongside our Board of Directors and Leadership Council to accomplish these efforts.

The biggest "win" this year has been getting the green light from National MGMA to pilot a North Carolina driven salary and benefits survey, a benefit that hasn't been delivered since 2014! We are beyond ecstatic to be bringing a huge member benefit back to our membership in 2019.

Our Board's vision has been to continue down the path of transparency and connection to our membership through our local chapter affiliates. We had the privilege of working with a wonderful task force to focus on state and chapter consistencies and to build on a relationship that continues to flourish. This has been a true meeting of the minds and I am grateful to work with so many talented leaders in our state.

This year provided fantastic educational, networking, and advocacy events such as our Annual Conference, Advocacy Days, and our Regional Education Days. All were true successes in my book and my hope for all of our members is that you take advantage of your membership by showing up at these events in 2020. They're worth the time to attend!

This year's Impact Report shows how NCMGMA is thriving amongst uncertainty in today's healthcare world. We continue to reach out and engage with our membership and bring value to practices across North Carolina.

Thank you, again, for allowing me the privilege of serving the membership this year. It has been a true blessing.

Sincerely,

Jane Lutz  
2018-19 NCMGMA President
