

Message from the President

As we put 2018 to rest, we will take a look back to reflect on all the accomplishments this year. But more important is our focus on the future and all that will be achieved in 2019. Thank you for the support and assistance that all our volunteers provided during the past year and will continue to provide going forward.

Our team has focused on our mission, vision, and credo and brought valuable education and networking opportunities to the membership in the way of two conferences, one roadshow and an Advocacy event that surpassed all expectations.

We also launched a three-year alliance sponsorship program for our valuable alliance partners.

As we navigate through challenging times in healthcare our thirteen committees continue to work with you and for you to bring education and networking through conferences, blogs, and the listserv. Our advocacy and payer committees provide the latest updates and meet regularly with the payer groups and legislators to bring concerns and work through the issues. The membership committee has brought an option for our retired members to continue their participation and hopefully provide mentoring to our newest managers. The newly formed I H S committee is focusing on the managers that work in integrated health systems.

Our nine regional groups bring education and resources to members that may not have the opportunity to attend a larger conference. They are well organized, and the leaders are dedicated to bringing strong programs to their groups. If you are not a member of one of these chapters I encourage you to seek out one in your area and get involved.

NCMGMA provides many resources and one of these is our alliance sponsors. Because of their generosity, we are able to bring educational events to the membership at an affordable cost. Their sponsorships allow us opportunities for webinars and programs for local chapters. Their companies provide services that can help your practices thrive in these challenging times. Be sure to take the time to thank these sponsors.

There are many exciting things coming in the near future. Our board has been working this past year with national MGMA board members and staff to make changes to our affiliation agreement that will allow our state association to bring back our Salary Survey which was a valuable tool and important benefit to our members. We have made progress and hopefully will be able to start work on this in the coming months.

I have stepped out of the presidential position but will continue to work with the new leadership and board to make NCMGMA the leading source for your Education, Networking, and Advocacy. Make time to connect with other managers, continue your education and join us in all our advocacy efforts in healthcare.

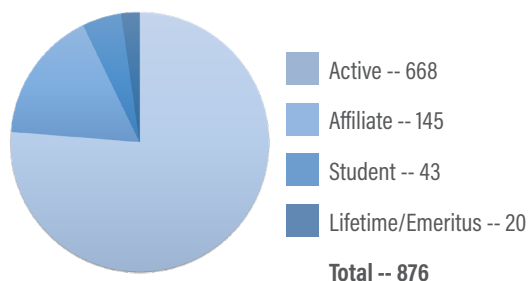

Wishing all of you much success in 2019!

Sandra M. Jarrett

Sandra Jarrett
2017-18 NCMGMA President

Membership Type Breakdown

Alliance Sponsorship

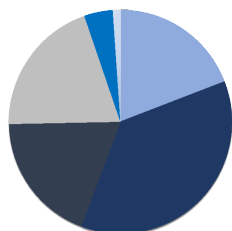

Sponsorship Benefits Members By:

- Reducing event costs for members.
- Expanding event opportunities for members.
- Producing additional association revenue to add membership benefits such as webinars, the listserv.
- Working with local chapters to provide additional education opportunities for members.
